

# TEN ARE DEAD IN BAD BLAZE AT TENEMENT

Fire Sweeps Through Five-Story House in New York.

## THIRTY ARE INJURED

Seventy-five Made Homeless by Conflagration, Monday.

New York, Nov. 14.—Ten persons are dead and an eleventh is dying as the result of a fire sweeping through a five-story tenement house at 108 West 17th street here early today. Two of the victims were children.

So much progress had the fire made before it was discovered and so rapidly did it spread that several of the victims were burned in their beds with out a chance for life. The cause of the blaze has not been learned.

Thirty persons were burned or injured in the mad scramble for safety that followed the sounding of the alarm by employees of a postal sub-station across the street. The injured were attended by Ambulance surgeons.

Seventy-five persons mostly Greeks and Spaniards, were made homeless by the blaze, which gutted the interior of the building. They were temporarily housed in the post office, while blankets and clothing were sent from New York hospitals and hot coffee and sandwiches were provided by the police.

Quick work by the firemen in running an 85 foot extension ladder up to the roof of the tenement house saved a dozen lives. The firemen were just late to save Benjamin Diaz, 25, who lost his grip on a third floor window sill just as a ladder was being put up to him. He fell to the sidewalk and sustained a fractured skull and legs.

Fireman Patrick Foley risked his life when he plunged through the flames to rescue an unidentified woman who was so badly burned that she is now dying in Bellevue. Idiline Mullano, 25, was taken to Bellevue suffering from a broken arm sustained when he was pushed off the fire escape by excited tenants.

Eight bodies had been recovered early today.

# MRS. GOULD DIES OF HEART FAILURE ON GOLF COURSE

Wife of Financier Will Be Buried in New York.

New York, Nov. 14.—The body of Mrs. George J. Gould, who dropped dead on the golf links of the Gould estate at Lakewood, N. J., was brought to the Gould residence here today to be prepared for burial. Funeral services will be held from St. Bartholomew's Protestant Church here.

Friends of Mrs. Gould, who had been with her a short time before her death said she had appeared in the best of physical condition. Two physicians agreed she had died of heart failure, superinduced by exertion. She was 56 years of age.

Mrs. Gould was the mother of seven children.

All except Vivian, now Lady Decies who is in England went to Lakewood in response to messages from their father. They are Mrs. Anthony J. Drexel, Jr., of Philadelphia, who was Marjorie Gould; Mrs. Carroll L. Wainwright, who was Edith Gould; Mrs. Gould, as Edith Kingdon before her marriage to George Jay Gould, had distinguished herself as an actress in the companies organized by Augustin Daly.

# FAIL TO DETERMINE ORIGIN OF BLAZE

Dayton, Nov. 14.—Fire officials have not yet determined the origin of the fire which caused damage estimated at from \$100,000 to \$125,000 in the Fourth street Arcade here, early Sunday morning.

Firemen believe that combination in one of the basements near the alley between the Third and Fourth streets entrances started the blaze. It is said that many packing cases and other materials subject to combustion were stored in the building.

Three alarms called out 11 fire companies, which battled the blaze from shortly after midnight until after three o'clock. Owners of stores in the Arcade building suffered heavy losses from smoke and water and tenants of the Fourth street Arcade apartments were driven to the streets in their night clothing.

## TOUCH ON CONFERENCE.

Columbus, Nov. 14.—Prayers and sermons in almost every Columbus pulpit Sunday were marked by references to the international armament conference now being held at Washington.

## America's Unknown Hero Laid To Rest

Amid impressive ceremonies, America's Unknown Hero was honored and laid to rest. The photographs show President Harding placing the Congressional Medal of Honor on the flag-draped coffin of the Soldier at the funeral services in the amphitheatre of the National Cemetery at Arlington, Va., and part of the funeral procession on its way to Arlington.

## BEGIN TASK OF OBTAINING JURY IN FILM TRIAL

Arbuckle Case Starts in San Francisco On Monday.

## DEFENSE MAKES POINT

Will Rely Chiefly on Testimony of Hotel Detective.

San Francisco, Nov. 14.—The task of obtaining a jury of 12 men and women who will determine the guilt or innocence of Roscoe ("Fatty") Arbuckle charged with manslaughter as the result of the death of Virginia Rappe, film actress, was undertaken here today. The thirteen women and fifty-three men were in the venire called in Superior Judge Harold Louderback's court at 10 o'clock today when the clerk called the case of the state vs. Arbuckle.

The state had twenty questions prepared for each juror. Two days was the most optimistic forecast for obtaining a jury while some estimated a week will be required and many special venires.

District Attorney Brady, as the trial started, repeated his challenge to the defense to put Arbuckle on the stand. It has not been definitely decided by the defense whether the film star will take the witness stand.

As the trial actually opened it became more and more apparent that the defense relies heavily on the testimony of George Glennon, hotel detective to clear their client. Glennon, it is understood, will testify that before her death, Virginia Rappe, in his presence absolved Arbuckle from blame for her condition. Glennon made a statement to the district attorney's office and the defense claims that the prosecution failed to pay any attention to it and that it was suppressed.

Their second line will be depositions to the effect that Miss Rappe suffered from a physical ailment for many years and had been warned that any exertion might cause her death. The state will fight introduction of this line of defense and expects to show that Miss Rappe, up until the afternoon of the party was in perfect health.

## AMERICA PREPARED TO PLUNGE INTO FAR EAST PROBLEMS WHEN SESSION RE-OPENS

Questions Will Come Up This Week, Possibly Tuesday—If Britain Accepts Proposal Before Japan, Chances for Renewal of Anglo-Japanese Treaty Slight.

Washington, Nov. 14.—America is fully prepared to plunge into far east problems as soon as the international conference on armament reduction and pacific questions resumes its sessions. They will be approached this week, possibly, tomorrow, unless it is decided to take up limitation of land armament first.

The powers have signified their willingness that both armament limitation and far east matters be discussed simultaneously so far as practicable. America's pacific policy already has been formulated. But, owing to the complexity of the issues involved, it is necessarily somewhat flexible. A program of such rigidity as that governing naval reduction could not be followed.

Now that the United States has made the first decisive move in the world's important crusade to reduce navies as the initial step toward minimizing the danger of future wars, the next word in this respect must be spoken by Britain and Japan. The line up of the interested powers appears to be:

United States—Unequivocal acceptance assured;

Britain—Technical revisions probably will be required;

Japan—Conditions involving Pacific bases and fortifications may be sought.

If the British accept the American proposals before the Japanese, a situation will have been created which constitutes an important forward step in America's effort to prevent renewal of the Anglo-Japanese alliance. Furthermore with Britain and America ranged together, the combination could exert powerful moral pressure upon Japan.

## GIVE MINSTREL SHOW

Bucyrus, Nov. 14.—A home talent minstrel show will be given here by the Colonel Crawford post, American Legion, Wednesday and Thursday, November 16-17.

## Future of World Rests With England In Answer To Plan To Divide Sea Control

By JAMES W. GERARD  
(Former Ambassador to Germany.)

Washington, Nov. 14.—A composite portrait of the delegates to this conference would show the face of a man determined to accomplish. There was an atmosphere of action when the congress assembled and into that atmosphere of action when the congress assembled Secretary Hughes immediately, without preliminaries, threw the golden apple, not of discord, but of opportunity.

## REPORTS DENIED

Washington, Nov. 14.—Reports that Great Britain was given previous information on the proposals which Secretary of State Hughes made to the armament conference on Saturday were officially denied by the state department today. It was stated that Hughes' statement was not given in advance to any nation.

## PUBLIC SALES

Nov. 23—B. West and Son.

## BRITISH AND JAPANESE DELEGATES SILENT ON HUGHES' ARMS PROPOSALS

### Volcano of Warfare in Ireland Rumbles Again

Attitude of Ulster Cabinet Makes Maintenance of Peace In Nation Difficult—Lloyd George Refuses Request That Correspondence be Made Public.

London, Nov. 14.—The volcano of warfare in Ireland was rumbling and smoking today as a result of what Sinn Feiners termed the "stiff cocked" attitude of Ulster's representatives.

Nearly all important Sinn Fein leaders have been called to council of war at Dublin. These include DeValera, Michael Collins and members of the Dail Eireann. Arthur Griffiths and a few lesser secretaries are the only Sinn Fein representatives remaining in London.

At the office of Sir Hamar Greenwood, chief secretary in London, it was declared that the attitude taken by Sir James Craig and his Ulster cabinet has made the maintenance of peace in Ireland difficult.

As the British cabinet went into session today to draft a reply to Ulster's counter proposals it was announced that Craig's plan for a conditional home rule in south Ireland would be rejected as impossible and that the government would ask that the Ulster representatives reconsider their latest move and assume an attitude more reasonable in order that peace might be attained in the Irish situation.

Premier Lloyd George has refused Ulster's request that the correspondence between the government and north Ireland, representatives be made public.

The Ulsterites, it was reported will make every effort to delay further action until they know the outcome of the unionist convention meeting in Liverpool Wednesday and Thursday.

## JAPAN'S FOREIGN POLICY IT IS SAID WILL BE PEACEFUL

Appointment of New Premier Indicates Militarists Lose.

Tokio, Nov. 14.—Baron Korekio Takahashi, Minister of Finance in the Hara Cabinet Sunday, officially assumed the premiership in succession to Takashi Hara, who was assassinated November 4.

The appointment of Baron Takahashi is regarded generally in political circles as a favorable indication of the warning of the power of the militarists and as insuring what is termed as a continuation of the "peaceable foreign policy of Premier Hara."

Baron Takahashi, accompanied by Viscount Uchida, Foreign Minister, proceeded to the palace Sunday morning for the installation of the Premier, which took place in the presence of Marquis Matsukata, Lord Keeper of the Privy seal; Viscount Makino, Minister of the Imperial Household, and Count Ogimachi, the Grand Chamberlain.

In addition to holding the premiership Baron Takahashi will continue as Minister of Finance and Acting Minister of the Navy.

The other Ministers in the Hara Cabinet will retain their posts.

## PROPOSALS OF U. S. HAVE NO EFFECT ON SHIPBUILDING

Nation Will Continue Its Program For the Present.

Washington, Nov. 14.—The proposals of the United States for a ten-year naval holiday will have no effect on the present status of the American naval building operations pending final agreement on the matter, the secretary said.

The secretary pointed out, however that congress may halt the building program at any time and said that whether or not it is wise for the building program to be curtailed before a definite agreement is reached, is for congress to decide.

## CLOTHING WORKERS IN NEW YORK STRIKE

New York, Nov. 14.—Sixty thousand cloak makers in New York City went on strike today because of an attempt by employers to restore the "piece work" system, which officials of the international garment workers' union declare will bring back "sweatshop" conditions. Manufacturers stated restoration of piece work was necessary for the good of the trade and "the benefit of the public." Ben Schlessinger, head of the garment workers union said he believed the employees would win and that they would spend their \$3,000,000 to bring victory.

## PREDICT DELAY IN FLAT REPLY TO SUGGESTION

Epochal Plans Approved "in Principle" But Not in Action.

## POWERS INSUFFICIENT

Matter Must Be Referred to Capitols of Two Nations.

Washington, Nov. 14.—While the naval strategists of all the great powers wrestled today with the exciting limitation conditions laid down by America, the heads of the five principal delegations went into secret session at the Pan-American Union building ostensibly to consider methods of procedure.

The session got under way shortly before noon. Present were Secretary of State Hughes, A. J. Balfour of the British; Premier Briand of the French; Baron Kato of the Japanese and Senator Carlo Schanser representing Italy.

The session lasted for an hour and a half and then adjourned. Efforts to ascertain what was accomplished were met with the statement that the committee "discussed procedure and organization and would meet again this evening."

## YOUTH ADMITS HE SHOT PROPRIETOR OF PICTURE HOUSE

Full Confession Obtained in Newark Murder Saturday.

Newark, O., Nov. 14.—John Carl Shirley, aged 23 years, native of Odenville, Ala., made a full confession yesterday to the murder of John Gallagher picture show proprietor here Saturday night after Shirley had been ejected by Alva Gleason, an assistant manager of the Gem theater because Shirley had insulted a young girl.

Shirley admitted the above and stated to Prosecutor Norpell that he had left the theater, went to his boarding house two blocks away, procured his 32 calibre revolver, which he always carried when he was drinking, returned to the theater and opened fire, after a scuffle with Gleason who again ejected him.

Mr. Gallagher attempted to pacify Shirley, but the latter fired point blank at him at close range. The bullet striking the victim in the center of the forehead, penetrating the brain causing almost instant death.

Mrs. Charles Metz, ticket seller stated that Shirley then fired two shots at her and two more at Gleason. Shirley also admits this. He seemed unconcerned and fell asleep twenty minutes after he was lodged in jail. While posing for a picture at the jail, Shirley glared at Gleason and the latter started an attack which was prevented by deputies. Shirley says his sister, Mrs. C. E. Streets, lives in Avenue B, Birmingham, Ala. and another sister, Mrs. Viola Smith, lives in Enslee, Ala.

Murmuring of trouble Saturday night caused a heavy guard to be placed in the jail but nothing occurred in the night.

The grand jury may be called into special session to review the case.

## HUGHES' PROGRAM COMPATIBLE WITH BRITISH DESIRES

Lloyd George Issues Statement on Suggestion of United States.

London, Nov. 14.—Secretary of State Hughes' proposals for limitation of naval armaments are compatible with British interests, according to an official statement issued from Premier Lloyd George's Downing street office.

"The proposals are ambitious, but as the conference has an ambitious project, they were not surprising," the statement said. "They are compatible with British interests."

At the regular morning press conference it was stated that no further announcements would be made and no action taken by the government pending the arrival of the official report from the British delegation at Washington.

MANUFACTURER EXPIRES  
Evansville, Ind., Nov. 14.—E. C. Johnson, 60 years old, for years engaged in the paint manufacturing business in Evansville, died suddenly at his home here yesterday. For years he was President of the old Evansville Business Association.

## Epochal Plans Approved "in Principle" But Not in Action.

## POWERS INSUFFICIENT

Matter Must Be Referred to Capitols of Two Nations.

Washington, Nov. 14.—While the naval strategists of all the great powers wrestled today with the exciting limitation conditions laid down by America, the heads of the five principal delegations went into secret session at the Pan-American Union building ostensibly to consider methods of procedure.

The session got under way shortly before noon. Present were Secretary of State Hughes, A. J. Balfour of the British; Premier Briand of the French; Baron Kato of the Japanese and Senator Carlo Schanser representing Italy.

The session lasted for an hour and a half and then adjourned. Efforts to ascertain what was accomplished were met with the statement that the committee "discussed procedure and organization and would meet again this evening."

Washington, Nov. 14.—Recovering somewhat from the severe shock caused by America's blunt presentation of a revolutionary naval program, the statement of Great Britain and Japan settled down today to the grim business of determining how far they can go in accepting it.

The first flush of general approbation has given way to the necessity of hard, matter-of-fact consideration of each proposal made by Secretary of State Hughes.

Both Great Britain and Japan have approved the epochal suggestions of America only "on principle" which is tantamount to saying that they approve the general idea of reducing existing navies and regulating future building. A cold analysis of the utterances of the delegates since Secretary Hughes tossed his bombshell into the peaceful quiet of Saturday's meeting reveals that none of them have gone further than approving "the principle" laid down admiring the boldness of its presentation and expressing the hope that at all times the hope that an agreement can be reached.

DELAY IS SEEN  
The impression prevailed in official quarters today that it will be considerable time before the visitations of London and Tokyo will be in a position to say flatly "yes" or "no" to the concrete terms as proposed by this government.

The delegates to the conference are known to be clothed with power and authority unusually great but they were unprepared for anything as far reaching as the American program. Already the cables have carried the American proposals to the capitals of the world and they will have to receive careful minute consideration of the British and Japanese cabinets before there can be a flat commitment.

This may take a considerably longer time than has generally been expected. In Tokyo, a new cabinet is just coming into existence under the leadership of Baron Takahashi. In London the government is beset by many difficulties of which the Irish question is the foremost.

## AWAIT REACTION

Officials of this government are anxiously awaiting the reaction of the proposals upon public opinion in Japan. Thus far the cables have not indicated the manner in which the news of America's history making step was received generally in Japan. It is significant, perhaps, that the American state department caused the speech of Secretary Hughes and the detailed program he laid down, to be "broadcast" to the world. State department officials wanted to guard against possible "garbled versions" of the program appearing before the peoples most directly concerned.

Meantime the committee on limitation of armament, comprising the leaders of the five big powers were to go into session behind closed doors this morning to discuss the program of procedure and map out a working plan.

If all goes well today, the mechanism of the conference should be well-oiled for the resumption of the main conference tomorrow. Following the meeting of the five leaders—Hughes, Balfour, Tokugawa, Briand and Schanser—the heads of all the delegations were to meet and take similar action with respect to a working program for consideration of the eastern questions.

## FUTURE OF WORLD RESTS WITH ENGLAND IN REPLY TO U. S.

(Continued from page one)

then it would seem that Japan must fall in line; to refuse would be as in the case of Germany notice to all the world that the die had been cast on the battle flag of Japan, would be carried to conquest or would go down in final defeat.

The proposal of Secretary Hughes is bold, sudden and sweeping. It means a long conference if it is seriously considered by the assembled nations, because each nation will seek consent to the realization of its aspirations before it agrees.

For ourselves, we are satisfied with the world as it is. We want only peace and an opportunity to trade on an equal basis with all countries. But the proud people of Japan feel that they have a right to associate in the family of nations the same right to expand and to find a place for their growing populations which France, Great Britain and America have always claimed and exercised; and at the same time must be settled our right to exemption from peaceful penetration by any race which does not ally in the melting pot of America.

From other nations will come other claims. The French delegation whatever their ostensible object, has really two aims—first, to obtain forgiveness of part of the financial debt which France owes us, and secondly, a promise that France shall be protected for all time from the fear of another German invasion. Public opinion in America seems against them on both points.

After all, the answer rests with Great Britain. What thinks the powerful statesman-philosopher brain of Arthur James Balfour? By blood, a Cecil of the family which has had a hand in the ruling of England since the first great Cecil was minister to the Virgin Queen Elizabeth, is Balfour far-seeing enough to realize changed conditions and to consent in the cause of all humanity, as well as Britain's financial interest, that Britannia shall resign the scepter of absolute sea rule which Drake and his brave sea rovers won for Elizabeth?

Should Balfour and the British delegates refuse a reasonable limitation then the race for naval supremacy will go on until universal financial ruin shall involve the world and destroy all that we of this generation know of law and order and civilization.

## HERE ARE WAYS TO TEST DIAMOND FOR GENUINENESS

Chicago.—Is your diamond genuine? If there is any doubt in your mind the best thing is to take it to a reliable jeweler. You can, however, test the stone yourself if you know how. And here's how:

A small drop of water on the face of a clean diamond may be rolled about with the point of a pin without losing its globular shape. On an imitation diamond the water will spread. A genuine diamond immersed in a glass of water will flash and sparkle as brightly as in the air. A counterfeit gem will be almost invisible.

An imitation squeezed between two silver dollars may be crushed by the pressure of the fingers. This test when performed by the strongest man, will not injure a diamond. A steel file applied to a diamond will not scratch it. It will chip a counterfeit. When marked by an aluminum pencil a genuine stone may be easily cleaned of the mark. The imitation holds the mark stubbornly.

The best test of all is that of specific gravity. All diamonds have a specific gravity of 3.52. If you don't know how to take specific gravity any chemist can take it for you.

The latest word from the syndicate which controls the diamond market is that the price of diamonds will not come down. The directors of the company say on the contrary, that conditions at the South African mines make it probable there will be a slow but steady advance in price for several years.

### FIVE TEAMS IN FIELD.

New York, Nov. 14.—Five teams remained in the field of contenders for the mythical eastern football championship today. Penn. State, Yale, Lafayette, W. and J. and Cornell have not tasted defeat this season and it is more than likely that at least four of the five will come through with clean slates.

### BOBBED HAIR FAD GROWS

Columbus, Nov. 14.—Many co-eds at Ohio State University have joined the ranks of the short-haired. At O'xley Hall, 15 out of 73 girls have their locks shorn every two weeks. In South Hall, 9 out of 75 girls wear their hair bobbed while 50 per cent of the co-eds at St. Hilda's Hall have short hair and one-seventh of the girls in Baker Hall have bobbed hair.

BRADFIELD REGULATOR CO., DEPT. 9-D, ATLANTA, GA.

## URGE SEPARATE DEPARTMENT OF EDUCATION.

Many prominent people in the country are urging the formation of a Department of Education as a branch of the Federal Government, with a Cabinet member at the head. They maintain that education is as important to the country's

welfare as any other activity and should therefore be concentrated in a separate Department, the same as the Army, Navy and other Departments. Some of the well-known people who are advocating the measure: Left to right, Judge

Towner, Iowa; C. W. Williams, President National Educational Association of Tennessee; Mrs. G. G. Winter, President Women's Clubs, of Tennessee; Senator Stirling of South Dakota, and A. Lincoln Flene, of Boston, Mass.

## OHIO STATE AND IOWA ARE TIED FOR FIRST HONORS

Chicago, Nov. 14.—If only the schedule makers of the big ten could have foreseen the course of 1921 football events and arranged for Ohio and Iowa to meet next Saturday in the closing game of the season what a fantastic finish it would have been for a stupendously successful year.

But the schedule makers did not foresee, and probably would not have cared if they had, so the season will dribble out this week end with the two greatest eleven in the conference playing teams they are almost certain to defeat.

Ohio, with four victories to its credit, should make it five in a row Saturday with Illinois, as the victim. Illinois, however threw a stiff scare into Chicago last Saturday, holding the long end of a six to nothing score at the end of the first half and may make the going rough for the Buckeyes Iowa has a soft spot for its closing games. The Hawkeyes will play Northwestern at Evanston. Northwestern has yet to win a conference game and it is hardly likely to cause trouble for Aubrey Devine and his Pittsburgh powered gridiron machine.

Purdue and Indiana will meet at Bloomington. Michigan and Minnesota will wind up the season at Ann Arbor.

## MRS. J. W. TAIT CALLED BY DEATH

Mrs. Josephine Whitaker Tait, 67, for many years a resident of Yellow Springs, died at the home of her daughter, Mrs. William C. Myers, 1167 South Fountain Avenue, Springfield, Sunday morning at 6:50 o'clock, following a complication of diseases.

Mrs. Tait was a resident of Yellow Springs, practically all of her life, having made her home with her daughter only for the past year. She is survived by one son, Arthur W. Tait, of Ashville, North Carolina, and two daughters, Mrs. Myers and Jeanette Tait, of Springfield.

Mrs. Tait was a member of the Methodist Church at Yellow Springs. Funeral services will be held at the daughter's home, in Springfield, Tuesday at two o'clock. Burial will be made at Glen Forest Cemetery in Yellow Springs.

## IMPORTATION OF LIQUOR TO FALL

Washington, November 14.—Liquor importations will be reduced to one-tenth of the quantity now brought from abroad to supply nonbeverage demands, as a result of new plans projected by Roy A. Haynes, Prohibition Commissioner.

Under the system governing whiskey importations heretofore liquor imports have risen in one year from \$599,000 to more than \$5,000,000. That figure represents, however, only the rock-bottom wholesale price at which foreign whiskey, wines and other liquors are imported. The average price paid for imported liquors is \$1 a quart. On certain liquors the price is even below that figure. Bootleggers who were able to obtain supplies from that source made sales at 10 times the original purchase price.

## Neglecting That Cold or Cough?

Letting the old cough or cold drag on, or the new one develop seriously, is folly, especially when at your druggists, you can get such a proved and successful remedy as Dr. King's New Discovery. No drugs, just good medicine that relieves quickly.

For over fifty years, a standard remedy for coughs, colds and grippe. Eases croup also. Loosens up the phlegm, quiets the croupy cough, stimulates the bowels, thus relieving the congestion. All druggists, 60c.

## Dr. King's New Discovery For Colds and Coughs

Wake Up Clear Headed. That "tired out" feeling mornings, is due to constipation. Dr. King's Pills act mildly, stir up the liver and bring a healthy bowel action. All druggists, 25c. **PROMPT! WON'T GRIPE! Dr. King's Pills**

## Charming Member of the French Cabinet Circle

A recent portrait of Mme. Berthelot, one of the most charming members of the French Cabinet circle. She is the wife of the Secretary of Foreign Affairs.

### STILL HOLDS GRIP

Grafton, Nov. 14.—Prof. W. H. Tabter failed to lose his grip when he was demoted to principal of the Grafton school after being superintendent of the schools for 24 years. Tabter is still going strong with an added 21 years of service as principal, making a total of 45 years that he has been affiliated with the local schools. And he is still teaching.

### MIAMI'S HOPES BRIGHT.

Cleveland, Nov. 14.—With only one obstacle — Cincinnati — remaining, Miami's hopes of a football championship are very bright today. Oberlin's failure to dispose of Case, Saturday, leaves to the Congregationalists the great honor of having been the only team thus far this season to score upon Ohio State, oncoming western conference champions.

## CLOGGED BLOOD WITHERS THE BODY

Workers Sick and Weak From Exertion Take Gude's Pepto-Mangan

Men and women who toil, either physically or mentally use up energy. When they overwork they use up more energy, and sometimes the blood gets in a run-down condition. Without rest the blood cannot get back to normal, so that it becomes clogged with waste matter from over-exertion.

The clogged blood virtually withers the body. The strained looks on pale faces, the thin, bloodless arms, the dead-tired feeling, are the results of stale blood depriving the system of life-giving oxygen.

Workers go to the drug store and get Gude's Pepto-Mangan when they feel weak and run down. They take it in either the liquid or the tablet form. That makes the blood rich and red and drives out the poisons. Life-giving oxygen, carried by the little red cells, renews the strength and builds up the entire system. Look for the name "Gude's Pepto-Mangan" on the package. adv

## HAVE DARK HAIR AND LOOK YOUNG

Nobody can Tell when you Darken Gray, Faded Hair with Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe. Improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. It's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

## SCHOOL CHILDREN WILL BE EXAMINED WHEN THEY ENTER

Beaver, Pa.—"Johnny, come forward, please."

"Your coat off. Step on the scales. Eighty pounds. Chest, twenty-nine inches." And so on.

This scene will be repeated in every third and fourth class school district, with every teacher of every room of every school in Philadelphia assuming the role of examiner, within the next few weeks where examination has not in fact already been made. Next September the same drama will be enacted, and so on.

Pennsylvania has new medical inspection rules. The teacher begins, the physician ends it all, except filling the health cards away. School authorities must do this.

Instructions to the teacher read that at the opening of the school term she must ascertain the age of each pupil under her care—the grade, weight, height, "and so forth." "And so forth" means cursory examination. After "and so forth" comes the doctor who examines the pupil like an army doctor examines a recruit, or nearly so. If there is anything wrong with the pupil's teeth the trouble is noted. If the pupil's eyes are not normal this fact is noted. If the pupil's toes point in too many different directions the doctor sets it down on the health card. If speech is carried on with exceeding difficulty this is noted. If any organ is affected in any particular the organ is described upon the card.

After the doctor has a pretty fair

## KIDNEY TROUBLES Conquered or Money Back

For 40 years, says Dr. Carey, I have been prescribing Marsh-Root for Kidney and Bladder sickness on the money back if dissatisfied plan.

If you are tired, miserable, tortured with nagging backache, lameness, acute, darting pains; subject to dizziness, headaches, sallow skin, puffiness under your eyes, a tendency to rheumatic pains and bladder disorders, look to your Kidneys. Don't wait. Get your health back while you can. Drink lots of good, pure water and start at once taking Dr. Carey's Marsh-Root prescription No. 777. Liquid or Tablets. It has wonderfully benefited tens of thousands. Results guaranteed. Recommended and sold by Sayre & Hemphill and all druggists. Insist on genuine.

## TAKES CARE OF 5 CHILDREN

Mrs. Taylor's Sickness Ended by Lydia E. Pinkham's Vegetable Compound

Roxbury, Mass.—"I suffered continually with backache and was often despondent, had dizzy spells and at my monthly periods it was almost impossible to keep around at my work. Since my last baby came two years ago my back has been worse and no position I could get in would relieve it, and doctor's medicine did not help me. A friend recommended Lydia E. Pinkham's Vegetable Compound and I have found great relief since using it. My back is much better and I can sleep well. I keep house and have the care of five children so my work is very trying and I am very thankful I have found the Compound such a help. I recommend it to my friends and if you wish to use this letter I am very glad to help any woman suffering as I was until I used Lydia E. Pinkham's Vegetable Compound."

Mrs. MAUDE E. TAYLOR, 5 St. James Place, Roxbury, Mass.

Backache is one of the most common symptoms of a displacement or derangement of the female system. No woman should make the mistake of trying to overcome it by heroic endurance, but profit by Mrs. Taylor's experience and try Lydia E. Pinkham's Vegetable Compound.

## Investors Should Profit Handsomely From Low Priced Securities Bought Now

Good securities may be purchased today at prices which are considerably below their intrinsic value. With the revival of business they should rise to higher price levels. The same amount of money may never purchase so large an income as it will today.

Fifth Floor, Union Trust Bldg., Cincinnati, Ohio  
Seven Long Distance Phones, Main 3134

index to the physical capabilities of the subject treatment is advised, unless no treatment is considered necessary. There is a column for results to be noted.

Over on the other side of the card are other blanks. They show what the pupil's record is in regular school work. Finally comparison is made after a time of the effect of proper physical development upon mental development. The aim is to build up the child's physical body and mental equipment by thoroughly modern methods.

Charts are issued to each school district by the Pennsylvania Department of Health. In Beaver County schools preparations have

already been completed for carrying out the wishes of the State board. In some districts nurses will be employed. It is held that by the application of the principles laid down by the State Department of Health that a better type of young manhood and young womanhood will be produced by the timely treatment and proper care of growing children.

After the first report is made it will be filed away for reference. Each year will add another chart to the original list, so that the child's development can be traced through the years. If the child moves from one district into another the chart follows.

## New Yeast Vitamon Tablets Round Out Face and Figure

With Firm, Healthy Flesh, Increase Energy and Beautify the Complexion—Easy and Economical to Take—Results Quick

Thin or run-down folks who want to quickly get some good, firm, solid flesh on their bones, fill out the hollows and sunken cheeks with strong, healthy tissues, and build up increased energy and vitality should try taking a little Mastin's VITAMON with their meals. Mastin's VITAMON is a tiny tablet containing highly concentrated yeast-vitamins as well as the two other still more important vitamins (Fat Soluble A and Water Soluble B). It banishes pimples, boils and skin eruptions as if by magic, strengthens the nerves, builds up the body with firm flesh and tissue and often completely rejuvenates the whole system. Quick, gratifying results. No gas caused. If you are thin, pale, haggard, drawn looking or lack energy and endurance take Mastin's VITAMON—two tablets with every meal. Then weigh and measure yourself each week and continue taking Mastin's VITAMON regularly until you are satisfied with your gain in weight and energy.

IMPORTANT! While the remarkable health-building value of Mastin's VITAMON has been clearly and positively demonstrated in cases of lack of energy, nervous troubles, anemia, indigestion, constipation, skin eruptions, poor complexion and a generally weakened physical and mental condition, it should not be used by anyone who OBJECTS to having their weight increased to normal. Do not accept imitations or substitutes. You can get Mastin's VITAMON tablets at all good druggists.

Are Positively Guaranteed to Put On Firm Flesh, Clear the Skin and Increase Energy When Taken With Every Meal or Money Back

THE ORIGINAL GENUINE MASTIN'S VITAMON TABLETS  
if it isn't MASTIN'S it isn't VITAMON

## Social and Personal

### "SHOWERED" BY FRIENDS RECENTLY

Mr. and Mrs. Paul Glass were completely surprised and "showered" last Tuesday evening, at their country home near New Burlington, the surprise being arranged by their neighbors and friends who presented them with many lovely gifts.

The evening was spent with games and a social time, a refreshment course being served later in the evening.

Mr. and Mrs. Glass, whose marriage was one of the early autumn events, have recently gone to housekeeping.

### COUPLE MARRIED AT PARSONAGE SATURDAY

Miss Opal Frances Knisley and Mr. Everett Vernon Radcliff, were quietly married at the parsonage of the First Baptist Church at high noon Saturday, the pastor, the Rev. Albert Read officiating.

The single ring ceremony was used uniting the couple and Mr. and Mrs. Radcliff left on a honeymoon trip immediately after the service. Both have been employed at the Ohio Soldiers' and Sailors' Orphans Home where they will make their home on their return.

### RECENT BRIDE HONORED AT SHOWER

Mrs. Manville Smith, (Arthella Lieurance), of Jamestown, was again honored, when Mrs. Harry Black and Mrs. Jennie Lieurance, entertained at a prettily appointed miscellaneous shower, at the home of Mrs. Black, Thursday afternoon.

Mrs. Lieurance received many lovely gifts in silverware, cut glass, china, and aluminum. Dainty refreshments were served later in the afternoon.

### ENTERTAIN AT FAMILY DINNER

Covers for sixty guests were laid at the home of Mr. and Mrs. Michael Trout, on the Hawkins road, when Mr. and Mrs. Trout entertained at a family dinner, Sunday. The dinner was given as a farewell to their relatives, as Mr. and Mrs. Trout are planning to move soon to their new home in Warren county.

### FAMILY DINNER GIVEN SUNDAY

The country home of Mr. and Mrs. T. E. Middleton, at Middleton's Corner, was the scene of a pleasant affair, Sunday, when Mr. and Mrs. Middleton entertained a number of guests at dinner. Covers were laid for the following: Mr. and Mrs. T. E. Craig and Mrs. J. L. Dunlap and son Francis, of this city; Mr. Charles Dunlap, Mr. and Mrs. Wilton Dunlap, Mr. Russel Dunlap, and Mr. and Mrs. Middleton.

### UNITED IN MARRIAGE AT PARSONAGE SATURDAY

Miss Opal Haines of Wilmington, and Mr. William E. Kerr of Oregon, were quietly united in marriage at the parsonage of Trinity Methodist Church, Saturday afternoon at three o'clock, the Rev. V. F. Brown officiating.

The only witnesses to the ceremony were the bride's parents, Mr. and Mrs. Haines.

Short services were conducted at the parents' home, Sunday, for James Blaine, the infant son of Mr. and Mrs. Blaine Newsom, of near New Jasper, who died Saturday. The child was born Thursday, and had been frail since birth. Besides the parents, two other children survive.

Floyd Smith, son of the Rev. Smith, of New Jasper, and a student of Cedarville College, was removed to his home Saturday from the McClellan Hospital, this city. Mr. Smith is suffering from typhoid fever, following an operation for appendicitis.

A baby daughter was born Monday morning to Mr. and Mrs. Geo. Morgan, of Chestnut Street. The child is Mr. and Mrs. Morgan's third daughter.

The members of the Catholic Ladies of Columbia, will entertain the congregation of the St. Brigid's Church at a social at the school auditorium, Monday evening. The evening will be spent in a social way. Cards and refreshments being enjoyed.

Three prizes given away free at Whitt's auction every night. 11-15

Mr. and Mrs. Charles Watkins, (Fannie Tonkinson), of the Lower Bellbrook pike, are the parents of a baby son, born at the McClellan Hospital, Sunday.

### GET IT AT DONGES.

Miss Gladys Cummings, who spent the week end at her home on South Detroit street, entertained the following guests from West Jefferson, Ohio: Mr. and Mrs. Earl Gregg, and daughter Betty Anne, and Eugene Powell, principal of the West Jefferson High School.

Wanted, Poultry—Heavy hens and springers. If you live in the county it will pay you to call me before selling. 164 Cedarville, O. Call at my expense. Wm Marshall. 11-15

Dr. C. H. Denner will be one of a hunting party which will leave Xenia Monday and return Thursday after a hunting excursion south of Hillsboro. Others in the party will be Dr. Denner's brother, Dr. Earl Denner of Columbus, his father J. M. Denner of Columbus and Dr. F. L. Zettle of Cincinnati.

Get a bargain at Whitt's auction tonight. 11-15

Regular meeting Triumph Temple Pythian Sisters, Tuesday, Nov. 15, 7:30 p. m. Initiation and refreshments. All members expected to be present. Clara Henrie, Secy.

Furs Wanted—I will be at blacksmith shop, rear of The Greene Co. Hardware Co., every Saturday. All furs will bring high prices this season. Wm. Marshall, Cedarville, O. 164.

Mrs. J. Charles Dodds, is leaving Monday evening for St. Louis, where she will join Mr. Dodds for a several weeks' trip through the South, while Mr. Dodds is on business. While in the South Mrs. Dodds will visit relatives at Memphis, Tenn.

Mrs. Amanda Hupman, of Dayton, is spending a few days in this city, at the home of Mr. and Mrs. Frank Hupman, on West Main St.

Winchester guns and shells, at Babb's Hardware Store. 11-15

Milo W. Anderson, Dr. George Davis, Lew Anderson, and Harvey Hawkins, who composed a party that have been enjoying the past month hunting big game at Sault St. Marie, returned to this city, Saturday.

Want three boys right away. Must be over 12 years. Clean and live wires. Good colored boys may apply too. Gazette Office. 11-15

Mrs. Thomas Nichols, of South Detroit street, is spending several days at the home of her son-in-law, Frank Whittington, and family of Springfield.

Winchester guns and shells, at Babb's Hardware Store. 11-15

Mr. and Mrs. W. H. Ginevan and daughter Dorothy, of the Beaver Creek road, entertained at their home, Sunday afternoon and evening, Mr. and Mrs. Otto Snyder, and daughter, Charlotte, of Dayton. Mr. Snyder resided for a number of years at Goes Station, and is now a member of the firm of the Globe Laundry, of Dayton.

Do you want an income property bringing in \$2,000 per year. A bargain. See Long and Marshall. 11-15

Mr. and Mrs. W. C. Worthington, of Wilmington, Ohio, were the guests Sunday of Mr. and Mrs. W. E. Boring.

For Sale—Double barrel shot gun. Call Bell phone 298 or 239-R. 11-15

Miss Anna Alexander, of Cedarville, has taken a position at Jobe Brother's Company.

For Sale—Dining room table, china closet, couch, chairs, stove, carpets and other articles. W. P. McKay, City. phone Blk-575; Bell 588-W. 11-14

Mrs. Bertha Harris Ellison, of Lancaster, Ohio, is making a few days' visit with Miss Anna McCracken, of North King street.

Millinery bargains. All hats greatly reduced. Finney's, Steele Bldg. 11-14

The Executive Board of the Social Service League, will meet Monday evening at seven o'clock.

For Sale—Bicycle cheap. Bell 581-R. 11-15

Mrs. Hugh Mangan, of the Jasper pike, is seriously ill, suffering from an attack of pneumonia.

Regular meeting of Xenia Council No. 67 Jr. O. U. A. M. Wednesday evening at 7:30 p. m. Work in the second and third degree, also nomination of officers. All members are requested to be present. Geo. H. Smith, R. Sec. 11-16

Raymond Stiles, and Charles Poland left Monday for Waverly, Ohio, where they will spend several days hunting.

See the Podunk Limited, Monday and Tuesday night at Moose Hall. A scream from start to finish. 11-14

Mr. and Mrs. Kenyon Riddle, of Middletown, were the week end guests of Mr. and Mrs. D. W. Cherry, of East Main street.

## TAKE STEPS TOWARD BOOSTING DAIRIES OF GREENE COUNTY

At a meeting of Greene County Dairymen in the Court House, Saturday steps were taken to boost dairy interests of Greene County by forming a branch of the Miami Valley Co-operative Milk Producers' Association.

At the close of the meeting many of the men present signed the contract which affiliates them with this organization when it starts into business.

E. D. Waid of the Dairy Marketing Specialist for the Ohio Farm Bureau made an appeal for the organization and outlined the plans of this new association which combines the best features of the Dairy Organizations now operating in the State.

Following Mr. Waid, Mr. Snyder of Springfield outlined how the Clark County Association has helped the dairymen of that county. He also stated that Clark is going into the Miami Valley Co-operative Association along with the other nine counties.

At the mass meeting, Saturday, local meetings were announced for the following Townships.

Bath—Thursday, Nov. 17, 7:30 High School.

Miami—Friday, Nov. 18, 7:30, Grange Hall.

Spring Valley—Saturday, Nov. 19, 7:30, Community Hall.

Beaver Creek, Monday, Nov. 21, 7:30 High School.

Xenia—Tuesday, Nov. 22, 7:30, Court House.

Sugar Creek, Wednesday, Nov. 23, 7:30, Township House.

E. D. Waid will also speak at these meetings.

Organization meetings in the other six townships will be scheduled in the near future.

## FIND PARALLEL TO NERO CASE

Marion, O., Nov. 14.—Nero fiddled while Rome burned, but a phonograph "jazzed" while the city market house burned in a \$50,000 fire here early Sunday morning. Harlan S. Simpson, a fireman, says that a pair of scales tipped over and struck the phonograph and released the "stop."

The phonograph occupied a position near the main entrance and the playing was heard by hundreds who gathered to see the blaze, with a stone's throw of the court house. The building, owned by the Knights of Columbus, was a large frame structure and was partially insured. The heavy loss was sustained by the stall owners who carried but little insurance on account of the excessively high rate.

## FOUR BOYS AND GIRLS OF COUNTY ATTEND MEETING

Four Greene County Boys and Girls are attending the Club Winners Week at the Ohio State University, this week. These are the winners of the trip prizes given at the Greene County Fair.

The following boys and girls are making the trip:

Inez Pennington, Poultry Club, Xenia Township.

Margaret Shaw, Food Club, Miami Township.

George Hare, Stock Judging, Beaver Creek.

Carl Bailey, Pig Growing, Jefferson Township.

The program arranged for the Boys and Girls lasts all week and a rousing good time has been arranged for them.

There will be games, speaking and moving pictures, something for every hour of the day all week long.

Over 600 club winners from all over the State will attend this event.

## NAMES PLACED ON HONOR ROLL

Members of the Home Guards, and Mother's Jewels, of Trinity M. E. Church, this city, were honored with having their names placed upon the honor roll, at the ninth annual convention of the Woman's Home Missionary Society, of the West Ohio Conference, which convened at the Grace M. E. Church, Dayton, last week. The honor was bestowed on the societies, because of the fact that the members had paid their dues before the first of November, the only organizations in the conference that have reached that goal.

About twenty-five women and young people from this city attended the sessions which were held on Wednesday and Thursday.

## LAST MINUTE NEWS

### "BIG TIM" SENTENCED.

Chicago, Nov. 14.—"Big Tim" Murphy, Chicago labor leader, was today sentenced by Federal Judge K. M. Landis to serve six years in Fort Leavenworth prison and pay a fine of \$30,000 for his part in the \$389,000 Dearborn street mail robbery.

### REINFORCEMENTS SENT.

San Diego, Cal., Nov. 14.—Reinforcements were pouring into Tiajuana today to aid Mexican federal troops who were attacked and routed by insurrectionists yesterday, according to unofficial reports filtering across the border. Contrary to first reports, which said the federal troops were ambushed in San Antonio canyon, a few miles south of the border. Fifteen federal troops were killed while the rebels lost only two dead and two were taken prisoners.

### BALFOUR TO ACCEPT

Washington, Nov. 14.—A. J. Balfour, head of the British delegation to the armament conference will probably go before the conference tomorrow and make a speech virtually accepting the proposals for a naval holiday made by the United States. It was stated semi-officially at the British delegation headquarters today.

### CORNERSTONE OF VICTORY

Washington, Nov. 14.—The last will and testament of George Washington was commended to the people of America today by President Harding as a "charter of good citizenship and patriotic purpose," in an address at the laying of the cornerstone of the National Victory Memorial Building, the home of an institution conceived by the Father of His Country to "disseminate learning, culture and proper understanding of right principles in government."

### FLYER IS KILLED

Pensacola, Fla., Nov. 14.—Machinist's Mate Colton was killed and Lieuts. Steadman Acker and O. S. Spaulding was severely injured when seaplane No. 2100 from the naval air station here, went into a tail spin at an altitude of 1,000 feet and crashed off Barrancas beach.

The officers were rescued by speed boats sent to aid the flyers. Colton's body has not been recovered.

"I saw the cutest little hat this afternoon."

"Did you buy it?"

"Not yet. I've got to pick out a more expensive one for my husband to refuse to buy. I can compromise on this one."

"Have you been able to figure it out how it is that you have plenty of heat in your house?"

"Sure; the owner lives in one of the apartments."

## CHURCHES OBSERVE RED CROSS SUNDAY

Short services for Red Cross Sunday were held in fifty churches of the county Sunday. Ten minute talks, dealing with the work that the Red Cross has accomplished and the organization's needs were given by the ministers of each church.

Posters for the Fifth Red Cross Roll Call drive, and the service flags of the war, were displayed attractively in each of the churches. At the close of the services pamphlets, and literature, dealing with the work of the national and local Red Cross organizations were distributed to the congregations. A short talk upon the Roll Call was given at New Jasper, by Miss Louise B. Shaffer, local secretary.

## RAT CAUSES ALARM TO BE SENT OUT

Columbus, Ohio.—A burglar alarm sounded in the heart of this city's downtown business district. It thrilled theatergoers and window shoppers.

A crowd of about 1,000 persons gathered in front of the Krog store, High and Gay streets, where the alarm sounded. The police began a search. The probe resulted in the discovery that electric wires had been chewed by a rat.

## MATRON IS DEAD

Cadiz, Nov. 14.—Mrs. Welsh Rogers, matron of the Harrison county children's home, died as a result of nervous prostration.

## KIDDIE KAPERS By BILL BAILEY

The cost of living gets my goat. Good gracious how they soak! And when I pay the war tax too, I find that I am broke.

83 © U. S. Feature Service, Inc. N. Y. C. BILL BAILEY

## GENERAL WOOD'S BIG JOB TO RECTIFY DEMOCRATIC MISMANAGEMENT IN THE PHILIPPINES.

Nearly a quarter of a century has passed since George Dewey, his commodore's pennant flaunting from the Olympia's masthead, blazed his way into Manila Bay, sank the Spanish fleet, and gave to the United States a colonial empire. It would seem that this was ample time for the American people to become tolerably familiar with the politics, problems, and potentialities of the great archipelago of which, through the fortunes of war, we unexpectedly found ourselves the guardians; yet the discouraging fact remains that, in spite of all that has been said and written on the subject, the average American knows far less about the Philippine Islands, over which floats the American flag, than he knows about Mexico or Ireland or Germany or Russia.

An article in Harper's Magazine for November, by E. Alexander Powell, noted author and war correspondent, gives a more elaborate account of this new possession of ours than anything we had previously seen. We are not able to give even a meager synopsis of this able article, but are content with Mr. Powell's explanation of President Wilson's reversal of former Republican policy in the Philippines, as follows:

"The return to power in 1913 of the Democratic party was the signal for a complete reversal of American policy toward the Philippines. Though, during both the Roosevelt and Taft administrations, the Filipinos had been granted a steadily increasing measure of autonomy, certain departments of the insular government, particularly those which related to public security, public instruction, and public health, had been kept under American control. But with the inauguration of President Wilson the so-called 'Filipinization' of the Philippines by which is meant the appointment of Filipinos to government positions—which had begun with the American occupation of the islands in 1898 and had made steady progress under Governors-General Taft and Forbes, was suddenly expanded to a degree which those best acquainted with the Filipino and his limitations believed to be unwise and inimical to the best interests of the natives themselves. Whereas Taft and Forbes began to Filipinize the insular government from the bottom up, cautiously feeling their way and placing natives at first only in the lower positions, the Democratic administration jumped in and Filipinized the highest positions in the government appointing natives of little or no experience as judges, chiefs of bureaus, and secretaries of departments, many of these appointments being based on political considerations rather than on merit, as had been the case theretofore. That, and the establishment of an elective Senate in the place of the appointed commission which had acted as a Senate, comprise the principal measures of Filipinization effected under the Wilson administration. As a result of this policy of wholesale Filipinization, the executive departments of the insular government, with the sole exception of the Department of Public Instruction, the portfolio of which is held, according to law, by the American Vice-Governor, are now in Filipino hands.

"Of the school system in general it may be said that American teachers have been almost entirely supplanted by natives in the lower and intermediate grades and that higher education is rapidly being turned over to the latter, there now being upward of eleven thousand Filipino teachers and less than four hundred American ones in the islands, though recently the government has attempted to obtain additional teachers from the United States. I am not sufficiently familiar with educational conditions in the Philippines to discuss them intelligently, but my observations convinced me that, though the wholesale elimination of American teachers has unquestionably resulted in a marked lowering of educational standards, the native teachers are, everything considered, doing surprisingly well. One of the regrettable results of the Filipinization of the schools—regrettable from the point of view of Americans, at least—is the movement which has as its object the substitution of Spanish for English in their curricula. This may be, changed, however, when the young Filipinos who are being sent in steadily increasing numbers to the United States to be educated begin to make themselves felt in the public life of the Philippines."

We can only add to this "square" account of the condition of affairs in the Philippines the hope and belief that the new Governor-General—that wise, able and efficient business administrator, General Leonard Wood—will do for them all that any man could do for their best welfare.

## BRITISH TO PAY U. S. \$50,000,000 A YEAR.

An arrangement has been made to begin paying the interest on the debt owed by Great Britain to the United States at the rate of \$50,000,000 yearly, was announced in the House of Commons by Sir Robert Horne, the Chancellor of the Exchequer.

Sir Robert made this announcement in the course of a statement on the budget prospects. He added with emphasis:

"I hope this remark about the debt we owe America will not be deemed the occasion for any discussion of the interallied indebtedness. It does not conduce to the friendliness of the feeling between America and ourselves to discuss that matter at all at present."

Treasury officials say it is probable that Great Britain is preparing to begin interest payments next spring under the tentative understanding by which the interest was deferred for a three-year period ending next April.

The British debt now stands at approximately \$4,166,000,000 of principal upon which interest is payable at 5 per cent annually. The annual interest amounts to about \$200,000,000, which would be approximately equivalent to about 50,000,000 pounds, figured at an exchange rate of about \$4, the pound now being quoted at \$3.94. There is, however, accumulated interest, which would amount to about \$600,000,000 on November 15, which would have to be taken into consideration by the British.

## IT'S GOING TO BE HARD TO GET ANYTHING DONE AROUND HOME FOR A FEW WEEKS.

## 1901--Twenty Years Ago--1921

Mr. I. S. Dines went to Cincinnati today, to get ready for the exhibits which the Xenia Buggy Company will have at the national vehicle exhibit in that city.

The members of the sessions of the First and Third United Presbyterian Churches, held a meeting yesterday afternoon, to discuss the advisability of submitting the question of consolidation of the churches to the congregations.

Workmen today were engaged in laying a conduit from Green

street to the Court House. This conduit will pass the wires which will connect it with the electric light plant, a big transformer being on a pole on Green street.

The Spanish-American soldiers of Xenia, and vicinity met in the armory of the Schmidt Guards, Tuesday, and formed an association to be called "Spanish-American Veterans."

Mr. and Mrs. Charles Kelble have returned from Dodsonville, Highland County, and with them are several visitors who will spend several days in this city.

ways looking ahead and getting ready for the future.

If something in us could keep issuing bulletins for our protection—warning us when our strength grew less, or telling us to step less lively when our blood pressure mounted too high, it would remove much of our useless worry.

To have a strong body—ready to combat the attacks of the billions of minute germs that are everywhere—is to keep in health.

The happiest people in the world are those who keep ready.

Let us be as smart as clever as the little squirrel, anyway. Let us see that our own simple comforts are cared for—extending into the future. Then let us lend our ideas, experience money, or ability to the service of other people.

Strengthening Cheek Muscles  
If the muscles of the face are strong there will be less danger of sagging cheeks and wrinkles and hollows. Therefore every woman who fears the

approach of wrinkles should strengthen the muscles of the cheeks as much as possible.

There is a certain rubbing exercise which is well recommended for this, if the skin is dry coat it with a little

cold cream before you begin this rubbing. If it is very oily use talcum powder. This is simply to make the rubbing easier. Hold the hands over the face with the palms of the hand, that is the cushiony part of the hand against the skin. Then rub and knead the muscles vigorously—yet not too vigorously. What you want is to stimulate the circulation of the blood and to exercise these muscles. You do not want to pull or stretch them.

This kneading, rubbing motion should be kept up for several minutes the hardest part of each stroke being upwards so as to lift the lax and sagging muscles.

When you have finished wash the face with warm water, then rinse with water cold as you can get it, ice cold if possible. If you have a very loose and flabby skin this may seem to aggravate the wrinkles for a few weeks, but after that the whole face will be toned up and decidedly improved in appearance by this treatment.

Kitty M.—If your legs are so stout they shake when you walk, you must reduce your weight. If this is really the cause of the feeling of weakness in them, you must be very much overweight. Perhaps however, the unsteady feeling is the result of ill health—have you been ill lately? If so, exercise build yourself up and you will feel all right again.

Bee Bee—Reduce the ankles by massaging and kneading them vigorously with the hands to work off the superfluous flesh. If you are too stout, your ankles will be thick. Any strenuous outdoor or gymnasium exercise will tend to make the ankles slim and neat looking.

## ALWAYS BE READY

The instinct of the wild animal is to be prepared—whether it be for a fight in self-protection or for a cold winter.

I stood not long ago and watched a squirrel make a nest in a tree. Later I saw him take in nuts and things that he might have food when it would be too cold or perhaps too snowy to find it.

I have a friend who never gets his coat in until it gets so cold that he must have a fire—and then sometimes it is impossible to get it. When emergencies come everybody thinks

about protection. And there is confusion and often real suffering because of the delay and neglect.

Always be ready.

Have a bank account and keep adding to it. Keep your mind well filled with valuable information—for you never know when it will come in to your great gain. Keep looking ahead in the position which you hold. You never know when the next higher job will come to you.

The great man is always getting ready for something just a little bigger. That's what makes him great. And the useful average man is al-

For the slender, classic type are the grace and simplicity of the Grecian frock (No. 1) which may be copied in crepe de chine or crepe Romain. This model was shown in iris blue the drapery caught up with beads in a deeper shade, and a garland of pink roses suspended from the girde.

A petite, vivacious young belle will be able to do her deadiest in the lacy black buff frock, built on the fashions of the gayest French period (No. 2). The foundation is of black taffeta, and flat roses of cerise velvet trim the skirt.

## THE DOCTOR BOOK.

"Don't eat that pie," I say to Freddy; "Don't eat that cake," I say to Jane; "the doctor book declares, already, that such a diet is insane." The doctor book I highly cherish, it reeks with wisdom unalloyed, and it predicts that kids will perish who fill with pies their aching void. "Don't eat that jam," I say to Sammy, "or I'll apply corrective gad; this volume says that rhubarb clammy is better for a growing lad." The man who wrote the book was clever, but down on human joy, I fear; it seems he's saying "Don't" forever, and darkening some young career. "Don't drink fresh milk," I say to Lizzie; "Don't eat those prunes," I say to James; "this volume says they'll make you dizzy and undermine your growing frames." The kids are always being chidden, to sage advice there is no end; the things they like are all forbidden, the things they hate we recommend. And wise old lads are always writing big books on "How to Train our Boys," where everything that's uninviting is given as a cure for joys. I read the volume and deliver its message to the kids, unspoiled; I say, "Don't swim in yonder river until the water has been boiled. If children would not come a cropper they must obey their sires, gadzook; and when you don't know what is proper, ask me, and I'll consult the book."

## CLIFTON

The marriage of Mr. James Swaby prominent farmer, living on the Yellow Springs pike and Mrs. Nellie Gladfelter, of Springfield, took place Wednesday, the ceremony being performed by Rev. Dr. Hume of 1st U. P. Church, Springfield.

The bride party was entertained Wednesday evening by a daughter of the groom, Mrs. Samuel Stewart, at her home near Pitchin.

The Bible Class taught by Prof. S. E. Shupp, was entertained Thursday evening at the home of Mr. and Mrs. Albert Anderson. About forty enjoyed the evening.

Mr. and Mrs. H. N. Coe, of Yellow Springs and their cousins, Mrs. Hill, of Cleveland and Mrs. McCulloch of Belle Center, Ohio, were entertained Friday by Mr. and Mrs. A. E. Swaby.

A union prayermeeting conducted by the Rev. J. G. C. Webster, of the U. P. Church and Rev. R. N. Coleman, was held in the Presbyterian Church the evening of Armistice day.

Mr. Stafford McCullough, who has been hunting big game in Canada, brought home two deer, a moose and a wild cat.

Messrs. Swaby and Edwards have sold their grocery to Messrs. Bowen and Rigio, and gave possession last Friday. Mr. Robert Edwards will remain as postmaster.

Mrs. A. S. Lewis returned last Saturday from Pittsburgh, Pa., where she visited relatives for two weeks.

Miss Rhoda Kitchen and Mr. Busey of Pitchin, were married at the Presbyterian parsonage last Wednesday evening by Rev. R. N. Coleman.

Prof. S. E. Shupp and family were called to Plattsburg, Ohio, Saturday to attend the funeral of Mrs. Shupp's father, Mr. James Walker who died Tuesday in Columbus.

Cards are out for the wedding of

Mr. Ralph Ault and Miss Bertha Flatter on Wednesday, Nov. 16th, at the home of Mrs. Mary Flatter. Messrs. William Rife, Fred Esile and Warren Printz were elected members of Clifton School Board at the election, Tuesday.

The 3 mill increase for school purposes was also carried.

## NEW JASPER

Mrs. Cora LeValley entertained, Friday, at a three-course dinner, covers being laid for Mrs. Mary Spahr, Mrs. Nettie Sutton, Miss Hattie Long, Mrs. Flora St. John, Mrs. Rose Hite, and Mrs. Meda Warner. Mrs. Spahr, Mrs. Sutton, and Miss Long will leave the first of the week for the south and are planning to spend the winter at Tarpon Springs, Florida.

DINNER STORIES

A certain society lady, who was not quite so young or so beautiful as she used to be, underwent an operation.

On her recovery she was assured by her friends that the operation had taken ten years away from her looks.

Laughingly, she complained one day to the doctor.

"If three hours on the operating table made me look ten years younger, why didn't you keep me five hours and make me into a girl again?"

"Five hours there, my dear madam," soberly retorted the doctor, "would have made you into an angel!"

"Who is that man with the red nose you just bowed to?" inquired Mrs. Flatbush.

"Oh, he's a man I met out west," returned her husband.

"He is certainly not a prohibitionist, is he?"

"Why, I never had occasion to ask him, dear."

"But how did you happen to meet him?"

"Well, we were traveling out of Milwaukee on the same train one night. He had a bottle and I discovered that I had a corkscrew."

"You have done well in life."

"I hope so."

"You seem perfectly willing to impart the secret of success."

"Yes," said the great man, "and I sometimes think it is the only secret in the world that nobody cares about hearing."

"Say, pop," inquired the youngest member of the family, "is there a graveyard for flivvers? I saw a headline in the paper that said, 'Two Autos in Collision; One Killed.'"

"Let's go in here for luncheon. You don't have to tip the waiters."

"How do they manage it?"

"Easy enough. You pay twice as much for your food."

"Mrs. Blueblood brags about her ancestors, but I don't believe they amounted to much—they couldn't even afford to keep servants."

"How do you know that?"

"Mrs. Blueblood showed me a set of dishes that she said had been in the family for more than a hundred years."

"Was the wedding a success?"

"Indeed it was. Why, women wept bitterly who didn't even know the bride."

"Dabbs is going to start a matrimonial agency."

"What got him going that way?"

"Says he can see great possibilities in that business now that photographs can be sent by wire."

"Do tell us about the great wild west," said the impressionable young woman.

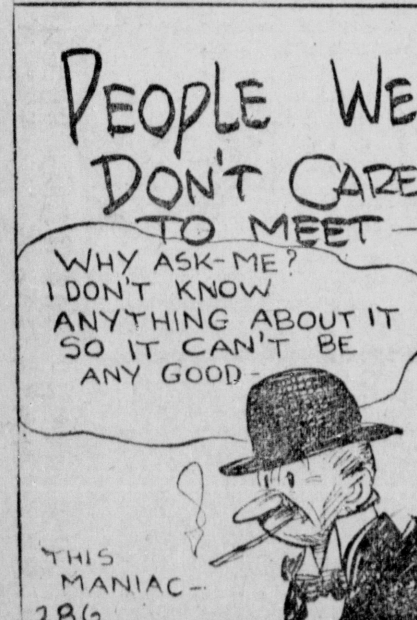

"You may not believe it," replied the tourist, "but I found a little town in North Dakota where there was not a single moving picture theater."

## Weekly Financial Review

The opening of the Arms Conference at Washington is undoubtedly the greatest economic and financial event not merely of this year but of a long period, and the community has very properly observed it at the instance of President Harding by suspending business for a day. It is a noteworthy sign of the times that most of the discussion about the conference and its probable results has to do with economic questions, particularly matters relating to foreign exchange and public indebtedness.

### FOREIGN TRADE DISTURBED

Meantime the disturbed condition of foreign trade has continued. It is a remarkable tribute to the tremendous economic strength of the United States and to the indispensable character of its merchandise that our shipments continue to maintain themselves at their present high levels. The quantity of gold imported by the United States in payment for these exportations has now reached the record-breaking level of over \$600,000,000 for the current year. During the past week the Federal Reserve Board has published computations based upon war data never before made known which show that at the time of the armistice this country owed to foreigners something like \$880,000,000 as the result of unused credits, balances of funds left on deposit here for safe keeping and other elements entering into international trade. This great balance necessarily tended to offset the merchandise we shipped abroad after the armistice, yet the board shows that our net claims on other countries today are not less than \$3,500,000,000. They are, moreover, being enlarged at a rapid rate.

### BUSINESS MORE NORMAL

While it is true that buyers are likely to hold aloof for some time longer, not only in the stock market but in various trade fields where prices are uncertain, the approach toward stability and normality is becoming more and more marked in many lines. The trade revival which is predicted in numerous quarters, for next spring is in fact already under way, as is shown by the lessening of unemployment and the reports of decidedly better traffic on the railways. There has been much less uncertainty in prices, Government indexes for last month, now just made public showing that the commodities there represented were stable, while commercial indexes have even shown a moderate tendency to increase.

### PROSPECT OF TAX REVISION

The Senate having at last passed the Tax Bill, that measure has gone to conference committee of the two houses. It is well understood that strong efforts will be made to rewrite the measure in a form that will harmonize more closely with the promises of the campaign of last autumn. Especially will it be attempted to effect a curtailment of the proposed rate of surtax and to improve the section relating to excess profits taxes. The question whether a sales tax provision may not be incorporated is an urgent and open issue, many believing that it affords the best way out of the dilemma into which Congress has plunged itself by the changes it has made in the pending bill, with the corresponding changes in yield which follow from these modifications. Meantime the opening of the Arms Conference has emphasized the necessity of some action on the International Debt Funding Bill and that measure may be disposed of shortly. Provision for the support of railroad credit is also to be furnished in the near future.

### CREDIT SITUATION IMPROVING

Credit conditions continue to improve. Collections are reported better practically throughout the country. The status of Federal banks is now one of unassailable strength. Not since the pre-war period have either their reserve ratios or their bill holdings reflected such a condition of liquidity as they do today. The fact that commercial rates have not come down in a degree to correspond with Reserve Bank rates is due to the extreme conservatism shown by many of the smaller banks, not over 40 to 50 per cent of these institutions rediscounting with the Reserve Banks. The latter are thus without means of releasing their surplus lending power since they must wait for the presentation of paper by the member institutions. Although there has been some increase in commercial failures, it has been of a minor description and reflects no new conditions in the commercial world on the contrary, the average business firm is in better position today to obtain accommodation than for a long time past. Crop moving demand is now apparently over and funds have begun to flow back to the Eastern centers. This is reflected by the reduction in interdistrict rediscounts.

### MARKET REVIEW AND OUTLOOK

The uplift in bond prices, which has mainly been brought about by purchases for the public at large is gradually extending to the share list. What the market has lacked of course has been buying in sufficient quantity to keep the upward movement going. To be sure, there is no expectation that there is to be any immediate rush to pick up stocks, but with confidence in the future replacing timidity it is only reasonable to believe that greater activity will be witnessed before long due to an increased demand. Many people are still short of stocks, having little faith in the anticipated business revival, but the ease with which prices respond to light buying is naturally making them less sure of their position. The results of railroad operations continue to make a very respectable showing, it being estimated that for the month of October the roads in the first class will be able to save \$85,000,000 net. The announcement in the House of Commons that Great Britain will soon be prepared to remit to this coun-

try 50,000,000 pounds annually on account of her national indebtedness is, of course, quite important, as payment of interest on the foreign debt due to us will have a direct bearing on taxation. Viewed from almost every standpoint, the market outlook is far from discouraging.

## THORPE'S TEAM IS DEFEATED BY CANTON

The Canton Bull Dogs professional football team, on which J. J. Slackford, former Xenian plays halfback, defeated the Cleveland Jim Thorpe's Cleveland professionals, 7-0 at Cleveland Sunday and eliminated them from the race.

Canton scored in the third quarter, when Cleveland seemed to weaken after the teams had battled on even terms in the first half. Carroll carrying the ball over the line and Feeney kicking the goal. Charlie Way, University of Dayton coach substituted for Slackford in the second half.

The Dayton Triangles retrieved their defeat at the hands of the Detroit Tigers some time ago at Dayton Sunday by defeating the Michigan eleven 27-0. Hathaway kicked two place kicks in the opening quarter, and three touchdowns in the fourth period piled up the score.

The Staleys of Chicago, defeated Rock Island, 3-0 through Sternaman's place kick. Akron and Buffalo played a tie game at Buffalo. The elimination of Cleveland by the Bull Dogs indicates that the championship now lies between Canton, Akron and Buffalo.

### CELEBRATE ANNIVERSARY

Ashland, Nov. 14.—In the home which they occupied for 50 years, Mr. and Mrs. David A. Phillips celebrated their golden anniversary. Mr. Phillips is a life-long resident. Mrs. Phillips, born in Holmes county, has resided here for 60 years.

### JAIL IS FILLED

Elmhurst, Nov. 14.—The county jail was filled to capacity when 16 persons, most of them charged with petty thievery, were brought here from Lorain in one day.

## IT BROUGHT JOY TO THEIR HOME

Chicago Man Says Wife Had Been Ill A Year—Well and Happy Since Taking Tanlac.

"There's bound to be something unusual about Tanlac, to help a person like it has my wife," said John Riffner, 1942 Dayton St., Chicago, Ill.

"For over a year my wife suffered from stomach trouble, and at the same time she started on Tanlac, was in a very badly run-down condition. No matter what she ate or how little, she had indigestion afterwards and it was simply terrible the way she suffered. Her sleep was so broken on account of nervousness that she always began the day tired out, and her nerves kept her miserable all the time. Often she was so weak and dizzy she just had to sit down to rest before she got through with breakfast.

"Well, before she had finished her first bottle of Tanlac we were mighty happy to see that it was helping her right along. She has now taken four bottles, and her appetite is so fine she holds her own with our healthy children at the table, and everything agrees with her so well she has gained ten pounds in weight. She sleeps well every night, and is so well and strong she can look after her numerous household duties without a bit of trouble. I don't believe Tanlac has an equal for troubles like my wife had."

Tanlac is sold in Xenia by Sayre & Hemphill, and all leading druggists everywhere.

# Compare the Furniture Value

## Every New Edison is a Period Cabinet

When your phonograph is not playing, it's a piece of furniture. If you and your family have "thousand dollar" tastes in furniture, you have still another reason for choosing the New Edison.

The accepted masterpieces of furniture were created during the 16th and 17th Centuries, by Chippendale, Sheraton, the Brothers Adam, etc.

People today pay thousands of dollars for replicas and adaptations of these fine old designs.

Mr. Edison has taken the "thousand dollar" period designs, and made them into cabinets for his remarkable New Edison. No matter which New Edison you buy, you become the envied owner of a genuine piece of period furniture.

Before you buy elsewhere, come in and compare.

# The NEW EDISON

See the authentic English, French and Italian designs, you can get in a New Edison—and compare!

Hear the marvelous RE-CREATIONS of music which the New Edison brings you—and compare! (Remember, only the New Edison RE-CREATES music so perfectly that the reproduced music sustains the test of direct comparison with living artists).

Then, figure the price,—and compare!

For \$\_\_\_\_\_ (write in your own first payment) you can have your New Edison delivered to your Christmas tree. Pay us no more till next year,—then budget the balance according to your convenience.

This is an actual Christmas offer!—to you! The only condition is that your initial deposit be sufficient to indicate good faith. So don't hesitate! Come in,—see and hear the New Edison.

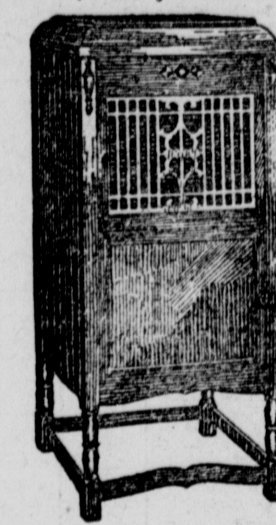

# J. A. BEATTY AND SON

## LEGION TEAM ADDS ANOTHER VICTORY TO LIST OF WINS

Xenia American Legion football team stock went soaring when the big blue team defeated Holy Cross of Cincinnati, one of the fastest aggregations in the Queen City, 14-7, at Gatch Field, Sunday afternoon.

Big Bill Foscula and his mates from the river city were turned back in a style that was neither expected by them or by the spectators in one of the best games ever played on the local grid lot. Real football from start to finish, was exhibited on both sides during the time of play, with the Legion athletes having a shade the best of the argument.

Although the excitement and interest was rife during the entire contest, the second period saw the beginning and the end of the scoring. The second quarter opened with the ball in Xenia's possession on Cincinnati's 25, after Stephens had accepted Crowley's punt on the 50, a pass, Stephens to Buck netted 15, and Walker had bored in for seven.

Launching their scoring attack, Stephens made five and first down on the visitor's 20. Walker went in for two, Stephens three, and Buck 4. Then Buck dashed for ten yards and a first down on Cincinnati's one yard line. Buck lost one but picked it up the next time. In the third attempt he fell short by inches and the fourth time he scored. Paul Fuller kicked the goal.

Buck kicked off to Crampton at Holy Cross's choice and he was downed on Cincinnati's 29. Robb made three and Crowley 5, but Cronin lost one and Geishe could not gain. Xenia taking the ball on Cincinnati's 38-yard line. On the first play, through a complicated pass system from the brain of Coach Baldwin, Stephens passed to H. Hoag, who through the shift was playing end, and who negotiated 20 yards for the second touchdown. Paul Fuller again made the goal kick good.

Buck kicked off again to Cincinnati's 35 but Xenia was off-side on the kick and had to kick again from the 35-yard line. Robb took the kick-off and ran back 30-yards to the 50. Robb bored in for five and Geishe made 2. Crowley made it first down then Robb slipped through tackle for 35 yards and a first down on Xenia's six. Geishe made 4, and then Crowley went the Rev. S. Lazarou, Greek Orthodox priest of Dayton.

During the ceremony, three-foot candles, embellished with gold figures and flowing white crepe bows, were held by the bride and groom, symbolic of the candles of the Greek Orthodox churches.

The ceremony was performed at three o'clock and lasted for more than an hour. Following the ceremony a reception was held during the afternoon and evening at the Pappas home.

Music during the evening, was furnished by the Papanio orchestra composed of Antonio Papanio, Sr., Antonio Papanio, Jr., and Antonio Parrino. Greek and American dancing were the features of the reception, while Antonio Papanio, Jr., gave several vocal solos. Another feature of the evening was the singing of the Greek Wedding song by Mrs. Pappas, accompanied by her husband.

Mrs. Pappas came to this country from Terlos, Greece, about five months ago, accompanied by her aunt, and two sisters. Mr. Pappas has been in Springfield for the past nine months. For four years he owned and operated the New Manhattan restaurant in this city, which he still owns, but is being operated by his cousin, Nick Danielidou.

## PICTURESQUE GREEK WEDDING PERFORMED SUNDAY AFTERNOON

With one of the most picturesque of Greek wedding ceremonies, ever celebrated in Springfield, the marriage of Mr. Nick Pappas, formerly of this city and Miss Artemus Zafiropoulou, was solemnized at Mr. Pappas' home at 9 East North Street, Sunday afternoon.

According to the Greek Orthodox rituals, the service was performed at the bridegroom's home, more than 200 persons being received following the ceremony. The wedding service was pronounced by the Rev. S. Lazarou, Greek Orthodox priest of Dayton.

During the ceremony, three-foot candles, embellished with gold figures and flowing white crepe bows, were held by the bride and groom, symbolic of the candles of the Greek Orthodox churches.

The ceremony was performed at three o'clock and lasted for more than an hour. Following the ceremony a reception was held during the afternoon and evening at the Pappas home.

Music during the evening, was furnished by the Papanio orchestra composed of Antonio Papanio, Sr., Antonio Papanio, Jr., and Antonio Parrino. Greek and American dancing were the features of the reception, while Antonio Papanio, Jr., gave several vocal solos. Another feature of the evening was the singing of the Greek Wedding song by Mrs. Pappas, accompanied by her husband.

Mrs. Pappas came to this country from Terlos, Greece, about five months ago, accompanied by her aunt, and two sisters. Mr. Pappas has been in Springfield for the past nine months. ## Efficient Housekeeping

By Laura A. Kirkman

place, of course removing an excessive amount of them. It is an economy to keep a certain amount of ashes on the hearth because when a fire is made these ashes will be located again and thus will assist in throwing out more heat. But they must be kept far back so as not to blow and so as to throw the heat forward into the room. The next step, after pushing the ashes back, is to place a "back log" on the andirons, pushing it well back against the center wall of the hearth. This back log is a great help in building a fire, usually a heavy, chunky stick of hard wood is chosen for it and it frequently lasts from one fire to another. Place crumpled paper or shavings between the andirons and cross kindling sticks on the paper—but more in a hilly shape than flat as when making a range or furnace fire. Lay a few heavier sticks on the kindling so that as the flame burns along the kindling, it will be led up to the back log. When a back log is used for a new fire it will be smaller than it originally was because part of it will have burned away; when it becomes too small for use as a back log, it should be drawn forward and a new back log put in.

To keep a large log from burning late at night when a fire is no longer needed, stand the burning piece on end back in the corner or against the side, and as it is isolated from the heat of other pieces of wood it will soon stop burning. A fire screen is a most important piece of hearth-fire equipment.

To Build a Coal Fire in a Hearth Grate: Remove all ashes that are in the grate from other fires, so as to have free access of air to the fire. Place crumpled paper or shavings in the bottom of the grate and a few kindlings or charcoal on top of these. Lay a grate fire, soft coal burns with a yellow flame, and because it is porous and full of gases it burns quickly and makes a splendid grate fire. If small paper bags are filled with hard coal—when this is used—in the cellar and put upon the grate fire in the bath this saves the dirt and unpleasant noise of shoveling.

Tomorrow—Answered Letters.

**MAY LOSE ARM**  
Defiance, Nov. 14—Polk Elliott may lose an arm which caught in the friction pulley of a well rig here. The arm was torn from the forearm when the arm was accidentally drawn into the pulley by the belt where it was held 15 minutes before the mechanism could be released.

**ORGANIZATION FORMED**  
Bucyrus, Nov. 14—The Crawford County National Farm Loan association organized here for the purpose of taking advantage of the National Farm Loan act. H. J. Miller, was elected president; Albert Ohl, vice president and A. A. Olson, secretary-treasurer. A loan committee, composed of L. A. Walters, Crestline; L. S. Hulen, Bucyrus, and C. C. Doyle, of Texas township, were also elected.

**To Gain Weight**  
Sayre & Hemphill guarantees Bitro-Phosphate to rebuild shattered nerves; to replace weakness with strength; to add body weight to thin folks and rekindle ambition in tired-out people.

Can you build a good fire?

place, of course removing an excessive amount of them. It is an economy to keep a certain amount of ashes on the hearth because when a fire is made these ashes will be located again and thus will assist in throwing out more heat. But they must be kept far back so as not to blow and so as to throw the heat forward into the room. The next step, after pushing the ashes back, is to place a "back log" on the andirons, pushing it well back against the center wall of the hearth. This back log is a great help in building a fire, usually a heavy, chunky stick of hard wood is chosen for it and it frequently lasts from one fire to another. Place crumpled paper or shavings between the andirons and cross kindling sticks on the paper—but more in a hilly shape than flat as when making a range or furnace fire. Lay a few heavier sticks on the kindling so that as the flame burns along the kindling, it will be led up to the back log. When a back log is used for a new fire it will be smaller than it originally was because part of it will have burned away; when it becomes too small for use as a back log, it should be drawn forward and a new back log put in.

To keep a large log from burning late at night when a fire is no longer needed, stand the burning piece on end back in the corner or against the side, and as it is isolated from the heat of other pieces of wood it will soon stop burning. A fire screen is a most important piece of hearth-fire equipment.

To Build a Coal Fire in a Hearth Grate: Remove all ashes that are in the grate from other fires, so as to have free access of air to the fire. Place crumpled paper or shavings in the bottom of the grate and a few kindlings or charcoal on top of these. Lay a grate fire, soft coal burns with a yellow flame, and because it is porous and full of gases it burns quickly and makes a splendid grate fire. If small paper bags are filled with hard coal—when this is used—in the cellar and put upon the grate fire in the bath this saves the dirt and unpleasant noise of shoveling.
